| 3. Keshav Gulati (2284200101) | 4. Gopal (2284200073) |

Project Supervisor: Mr. Ankit Kumar, Assistant Professor

About the Project:

Learning point is an online learning refers to the use of technology to deliver education over the internet. It allows learners to access educational content from anywhere at any time, making it a convenient and flexible option for those with busy schedules or geographic limitations. It contains wide variety of content of different Subjects. It contains great educational content, video lectures, interactive quizzes.

It is useful in many areas, including schools, universities, and workplaces. It can be cost-effective, reach a wider audience, and provide learners with skills and knowledge they need for their personal and professional development.

Learning point is an alternative of an classroom based learning, instead of attending classes from a physical location , learners can access course materials & participate in learning activities from anywhere with the help of internet connection.

Motivation:

1. Flexibility: It allows learners to access course materials at their own pace and on their own schedule, which can be especially beneficial for those with busy schedules or other commitments.

2. Accessibility: It enables learners to access educational content from anywhere with an internet connection, which can be particularly useful for those who live in remote areas or have limited access to traditional educational institutions.

3. Cost-effectiveness: It can be a more cost-effective option than traditional classroom-based learning since it eliminates the need for physical classroom space, textbooks, and other materials.

4. Engagement: It can be designed to be interactive and engaging, incorporating multimedia elements such as videos, quizzes and this things can help to keep learners interested and motivated.

Project Planning:

GANTT CHART

Tools required:

➤ **Hardware Requirements:**

1. **Processor:** Intel i3 @ 2.5GHz or more
2. **RAM:** 1GB or more

➤ **Software Requirements:**

1. **Operating System:** Microsoft Windows 7/8/10 (32/64 bit) Operating System.
2. **Browser:** Chrome, Opera Mini, Mozilla Firefox
3. **Text Editor:** Visual Studio Code
